

Barb Jennings

I'm originally from a small town in Western NY. My Mother was a very creative and artistic person that could make something beautiful from anything. This sparked my interest in art from an early age. In 2013 my husband and I moved to Florida. I have always been an outdoors person and love all nature. The ocean, beaches, and landscapes of the south are very inspiring to me. After years of business management I continued my art journey. It only took one fluid art class for me to be hooked. I haven't stopped trying new modalities of art since. My art is an expression of joy and color. I thoroughly enjoy when my art makes people smile because I'm smiling when I'm making art and often singing and a little dancing too. The mediums I create with are, Fluid art which I enjoy the freedom of working with, Acrylic painting of palm tree, seed pod and fronds, Resin art, Acrylic and Oil painting, Alcohol inks, and memory art, which I make with costume jewelry of loved ones passed. Much of my art has a coastal theme, as it is one of my happy places. My art interests and creations are ever evolving and I'm enjoying the journey. I'm excited for the opportunity to be a part of the Mossman Hall and Melrose artistic community.
